Source : The Bank of Korea, <http://ecos.bok.or.kr>

Note : 1) Based on revising of the standard year * In real GDP statistics as a consequence of being estimated using the chain-weighted rule, the total (or higher category) and the sum of the amount on the constituting categories may not match, a characteristic of the ratio adding rule

* When making a comparison on relative basis, a careful attention must be given since chain amounts of individual constituting items may not reflect the relative importance accurately

2) Electricity, Gas and Water Supply Business includes manure wastewater disposal, waste collection & transporting and recycling business

Note : 1) Based on revising of the standard year * In real GDP statistics as a consequence of being estimated using the chain-weighted rule, the total (or higher category) and the sum of the amount on the constituting categories may not match, a characteristic of the ratio adding rule

* When making a comparison on relative basis, a careful attention must be given since chain amounts of individual constituting items may not reflect the relative accurately the relative importance accurately

2) Electricity, Gas and Water Supply Business includes manure wastewater disposal, waste collection & transporting and recycling business
